JOURNAL OF THE IRON AND STEEL INSTITUTE

Volume 206
January–June 1968

EDITOR
A. Post, T.D.

MANAGING EDITOR
H. F. Cleere, F.S.A.

EXECUTIVE EDITOR
T. L. Hughes

PRODUCTION EDITOR
C. H. Inman

ASSISTANT EDITOR
B. W. Berry

Published at the offices of
THE IRON AND STEEL INSTITUTE

THE IRON AND STEEL INSTITUTE 4 Grosvenor Gardens London SW1

COUNCIL AND OFFICERS

(As at 1st July 1968)

Patron H.M. The Queen

President John Hugh Chesters

Past Presidents

The Rt. Hon. the Earl of Dudley, M.C.
Sir Andrew McCance, F.R.S.
J. R. Menzies-Wilson, O.B.E.
Capt. H. Leighton Davies, C.B.E.
The Hon. R. G. Lyttelton
Herbert Henry Burton, C.B.E.
Arnold H. Ingen-Housz
Sir Charles R. Wheeler, C.B.E.
William Barr, O.B.E.
William Frederick Cartwright, D.L.
Sir Charles Goodeve, O.B.E., F.R.S.
Sir Maurice Fiennes
Frank Bernard George
Frank H. Saniter, O.B.E.
William Frederick Gilbertson, J.P.
Sir Douglas Bruce-Gardner, Bt.
Norman E. Jones

Honorary Treasurer Lionel Roger Price Pugh, V.R.D., D.L.

Vice-Presidents

Thomas Rae Craig, O.B.E., T.D.
Michael Frederick Dowding
Howard Poulsom Forder
Geoffrey Thomas Harris, C.B.E.
Philip Everitt Holloway
Norman Cecil Lake
Sir Wilton Lee
Niall Campbell Macdiarmid
Arthur George Quarrell

Honorary Vice-Presidents

Alfonso de Churruca
Robert Durrer
Gunnar Schjelderup
Sir Arthur Matthews, O.B.E.
Joseph Oberegger
Berndt Gustaf Grönblom
Evert Wijkander
Eugène Louis Dupuy
Baron Walckenaer
Ian Frederick Lettsom Elliot
Gustavus Henry Latham
Baron van der Rest
William Reid Brown, D.S.O.
Giovanni Falck
John Watson Jenkin
Thomas Jolly
Ernesto Manuelli
James Bliss Austin
Donald Arthur Oliver, C.B.E.
Pieter van Delden
Hermann Schenck
William Charles Bell
Richard Alan Hacking, O.B.E.
Charles Henry Trelease Williams, C.B.E.
Sir Robert Shone, C.B.E.
Pierre Coheur
Dara Phiroz Antia
Bal Raj Nijhawan
Leonard Bessemer Pfeil, O.B.E., F.R.S.
Sir Richard Summers
Sir Charles Sykes, C.B.E., F.R.S.
Alexander Reith Gray
Eric Winearls Colbeck
Christian Martin Krüger
George S. Rose
Edward Thomas Judge
Geoffrey Weston Wells, D.L.
Rhys William Evans, T.D.
Edward Walters Senior, C.M.G.
Marc Allard
Norman Percy Allen, C.B., F.R.S.
Patrick Muirhead Thomas, D.S.O. T.D.

Members of Council

William Owen Campbell Adamson
Harold Montague Finniston
George Foster
George Edward Desmond Halahan
Norman Hanlon
John Arthur Kilby
Thomas Sheldon Kilpatrick
Henry William Kirkby
Peter Alex Matthews
Jack Nutting
Frederick Denys Richardson, F.R.S.
Ian Stephen Scott-Maxwell, O.B.E.
Francis John Somers, T.D.
Ronald Philip Towndrow
Thomas John Williams, O.B.E.

Honorary Members of Council

Sydney William Evans
Albert Jackson, O.B.E.
Jan Hendrik von Lindern
James Woodham Menter, F.R.S.
Dennis S. Oliver

Deputy Director, BISRA	W. C. F. Hessenberg
President of The Institute of Metals	I. Jenkins
President of The Institution of Metallurgists	W. A. Baker
President-Elect of The Institution of Metallurgists	A. H. Sully
Chairman of the Engineering Committee	C. E. H. Morris
Chairman of the Publications Committee	F. D. Richardson, F.R.S.
Chairman of the Meetings Committee	R. Mayorcas
President of the Birmingham Metallurgical Association	Mrs Marion McQuillan
Chairman of the Bradford Metallurgical Society	P. Hardaker
President of the Cleveland Institution of Engineers	H. M. Ryan
President of the East Midlands Metallurgical Society	R. Haynes
President of the Ebbw Vale Metallurgical Society	C. Leighton
President of the Leeds Metallurgical Society	J. H. Cairns
President of the Lincolnshire Iron and Steel Institute	J. D. Joy
President of the Liverpool Metallurgical Society	D. Hull
Chairman of the London Metallurgical Society	W. E. Duckworth
President of the Manchester Metallurgical Society	G. M. Leak
Chairman of the Newport and District Metallurgical Society	K. Carr
Chairman of the North Wales Metallurgical Society	R. Mayorcas
President of the Sheffield Metallurgical and Engineering Association	G. W. Giles
Chairman of the South Midlands Metallurgical Association	A. Carter
President of the South Wales Metallurgical Association	B. G. Baldwin
President of the Staffordshire Iron and Steel Institute	G. R. Morton
President of the Stoke-on-Trent Metallurgical Society	D. Field
President of the Tyne-Wear Metallurgical Society	S. G. Cope
President of the West Cumberland Metallurgical Society	D. R. G. Davies
President of the West of England Metals and Materials Association	E. Poole
President of the West of Scotland Iron and Steel Institute	J. A. Kilby

Secretary A. Post, T.D.
General Assistant Secretary H. F. Cleere, F.S.A.
Librarian and Head of the Information Department M. L. Pearl
Assistant Secretary (Administration) R. B. Wood

CONTENTS

Volume 206 January—June 1968

An annual author and subject index to the *Journal of The Iron and Steel Institute* (covering all papers and abstracts contained in it) is published separately. It also includes ISI Books and the titles of Institute Bibliographies published during the year. The papers which appear in this bound volume are given below (listed according to first author) and are followed by Institute business, discussions, technical notes, etc. BISRA papers are indicated by their number.

PAPERS

ALLEN, C. J. and BILLINGTON, J. C.: Applications of pilot plant studies to design and operation of continuous steel casting installations, 142.

ANTEINS, A. K.: Structure and manufacturing techniques of pattern-welded objects found in the Baltic states, 563.

BANERJEE, S.: Kinetics of first stage graphitization in untreated, sulphur treated and magnesium treated irons, 278.

BARHAM, P. J.: In-process identification marking of rolled steel products, 252. (BISRA Paper PE/C/54/67.)

BENNINGTON, S.: Blast-furnace practice at Ebbw Vale, 572.

BISHOP, A. C.: Design and operation of the slabbing mill at the Ravenscraig Works of Colvilles Ltd, 230.

BISWAS, M. G. A. and CODD, I.: An electron transmission study of iron–nitrogen martensite, 494.

BROOKS, C. H. and STRONG, H. J.: Twelve years of large arc furnace operation at Samuel Fox and Co. Ltd, 216.

BROOKSBANK, D. and ANDREWS, K. W.: Thermal expansion of some inclusions found in steels and relation to tessellated stresses, 595.

BURY, M. O.: The Iron and Steel Industry Training Board, 453.

CHARKER, F. E.: Blast-furnace performance using high-ash coke, 123.

CHESTERS, J. H.: The human factor in industrial research, 429.

CORN, D. L. and WAZZAN, A. R.: Investigation of the heat treatment of 18Ni–9Co–5Mo maraging steel in the 1000°–1300°F temperature range, 600.

DI CANDIA, A. and AMBROSETTI, F.: Quality control at the Taranto Works of Italsider SpA, 129.

DONOGHUE, J. A. and ROSSER, G.: Computer control of shearing yield in a primary mill, 467.

DURNIN, J. and RIDAL, K. A.: Determination of retained austenite in steel by X-ray diffraction, 60.

EL-KALAY, A. K. E. H. A. and SPARLING, L. G. M.: Factors affecting friction and their effect upon load, torque, and spread in hot flat rolling, 152.

FLUX, J. H. and NICHOLSON, A.: Engineering and metallurgical implications of the use of natural gas in steelworks, 555.

GLINKOV, M. A.; General theory of furnaces, 584.

GORDINE, J. and CODD, I.: Effect of presetting polished torsion bar specimens with and without aging on their fatigue life, 260.

HALL, C. R.: Four years of steelmaking in 200 ton LD furnaces, 113.

HANNERZ, N. E., LINDBORG, U. and LEHTINEN, B.: Brittleness in a cast steel caused by NbC precipitation, 68.

HARDY, C. W.: Refractories for the 80 ton FOS furnace at Dorman Long (Steel) Ltd, 353.

HOWES, R. S.: Some developments in electric steelmaking at Templeborough, 205.

HUGHES, H. and KEOWN, S. R.: Precipitation of a transition intermetallic compound (R-phase) in steels, 275.

HUGHES, I. F. and DANIELL, B. L.: Enhanced aging due to the γ to α transformation in an iron–0·025%nitrogen alloy, 283.

IKEGAMI, H., ISHIKAWA, H., and HORIGOME, A.: Progress of LD steelmaking in Japan, 345.

IRANI, J. J.: Isoforming–a technique of deformation during isothermal transformation to pearlite, 363. (BISRA Paper MG/A/47/67.)

JOLLEY, W.: Effect of Mn and Ni on impact properties of Fe and Fe–C alloys, 170.

KOMEM, Y., WEISS, B. Z. and NIEDZWEIDZ, S.: Chromium diffusion coating on hypoeutectoid carbon steels, 487.

KRÜGER, C. M.: The tandem-furnace process at Vanderbijlpark, 317.

LECKIE, A. H. and MORRIS, A. J.: Effect of plant and works scale on costs in the iron and steel industry, 442.

LIMES, R. W.: Refractory practice in basic oxygen furnaces, 478. (BISRA Paper SM/Conf/68.)

LUKES, V., HOHN, J., JANIK, I. and TROJKA, D.: Effect of homogenized ore burden on the operation of modern blast furnaces, 458.

MATHIESON, G. C. R.: The unique engineering problems of LDAC steelmaking, 337.

MOGFORD, I. L. and HULL, D.: Fracture of iron–tantalum carbide and iron–copper two-phase alloys, 79.

MORGAN, E. L.: Factors influencing surface defects on rails produced by the acid Bessemer process, 39.

MORRIS, C. E. H.: Organization and management information, 333.

MORROGH, H.: The status of the metallurgy of cast irons, 1.

MURPHY, M. C. and BRANCH, G. D.: Properties and microstructure of 12%Cr–Mo–V–Nb creep-resisting steel, 266.

NEEDHAM, F. H. and DUCKWORTH, W. E.: Interrelation between structural engineering design and metallurgy, 22.

NIJHAWAN, B. R.: Work on substitute alloys at the National Metallurgical Laboratory, 485.

PIERPOINT, L.: Lining experience on the Kaldo at Shelton, 1964–1967, 474. (BISRA Paper SM/Conf/68.)

PIETIKÄINEN, J.: Effects of the aging of martensite on its deformation characteristics and on fracture in Fe–Ni–Si–C steels, 74.

PILTER, P.: The Hungarian Association of Mining and Metallurgical Engineers 75th jubilee, 227.

RAMASWAMY, V., SUMNER, A. E. and WEST, D. R. F.: Recrystallization of a commercial austenitic (Fe–Cr–Ni–B) steel, 85.

ROBERTS, M. J. and OWEN, W. S.: Solid solution hardening and thermally activated deformation in iron–nickel–carbon martensites, 375.

SACHS, K. and MORGAN, A.: Susceptibility to delayed fracture, 357.

SPEICH, G. R. and WARLIMONT, H.: Yield strength and transformation substructure of low-carbon martensite, 385.

SUBRAMANIAN, K. N. and RICHARDSON, F. D.: Mass transfer across interfaces agitated by large bubbles, 576.

WILLMOTT, A. J.: Operation of Cowper stoves under conditions of variable flow: a computer study, 33.

WILSON, E. A.: Copper maraging steels, 164.

WISTREICH, J. G.: Automation in the iron and steel industry, 546.

VAN DER TOORN, L. J., MEISNER, J., DERUNGS, W. A. and VAN RIEMSDIJK, A. J.: Improved evaluation of Charpy impact test data, 50.

YUKAWA, M.: Development of structural high-strength steel and low-temperature steel in Japan, 11.

THE IRON AND STEEL INSTITUTE

Autumn General Meeting 1967: Formal business, 330.

Report of Council and Accounts for 1967, 533.

DISCUSSIONS

Discussion on 'Development of structural high-strength steel and low-temperature steel in Japan', 20.

Discussion on 'Interrelation between structural engineering design and metallurgy', 30.

Discussion on 'Four years of steelmaking in 200 ton LD furnaces', 121.

Discussion on 'Blast-furnace performance using high-ash coke', 128.

Discussion on 'Quality control at the Taranto Works of Italsider SpA', 140.

TECHNICAL NOTES

DAVENPORT, A. T.: Occurrence of 'arced' reflections in diffraction patterns from a vanadium steel, 499.

DAVENPORT, A. T. and BELYAKOV, B.: Applications of the 'Universal' electropolishing technique to iron and its alloys, 610.

GLOWACKI, Z., BAER, J. and LEDA, H.: Influence of austenitization conditions on chromium contents and curie point in carbides $(CrFe)_{23}C_6$, 393.

JAMIESON, R. M., OHENNESIAN, C. E. and MASYGAN, R. J.: Technique for assessing fracture appearance of Charpy-V specimens using a quantitative television microscope, 498.

LINDBLOM, B. E.: Vertical motion of spherical particles in fluids, 609.

MORRISON, W. B. and GLENN, R. C.: Examination of the Lüders front in a low-carbon steel by transmission electron microscopy, 611.

CORRESPONDENCE ON PAPERS

LEVY, F. L. /ROEDER, G. A.: Correspondence on the paper: 'Electric arc steelmaking with continuously charged reduced pellets', 289.

DOVER. T. M.: Correspondence on the paper: 'The future of home ore', 289.

REPORTS OF CONFERENCES AND MEETINGS

Report of BISRA/ISI meeting on 'High-temperature decomposition of austenite', 502.

Report of Staffs ISI/ISI meeting at Bilston on 'Gauge and thickness control in rolling', 48

NEWS
